

Read Me You can find these instructions on Figma here

The Center for responsible AI is a Freestanding Brand. As a Master brand, this logo doesn't need to be very noticeable and should compliment your own product's identity.

PRR Branding is mandatory for every product developed under The Center for Responsible AI Consortium

We combined both as a single element for ease of use. For the complete rules on the usage of the PRR, please check the PRR brand Guidelines

Bar usage on Print

Use it as a footer, from side to side, keeping your brand on top of layout. If the space available is too narrow, Use the Stacked Version.

Make sure logos have the same approximate size and weight. Keep the bar as a single element, with your own product's identity in its own space
